

Attach & Build

CosBond Attach & Build instant peel and stick sheets deliver a 2-sided powerful hold that allows you to instantly adhere just about any material with no mess, no fumes, and no drying time. Easy-to-use, Attach & Build can be cut to the size and shape of your costume pieces and application is as simple as peel and stick. After application, can be heated to bend adhered pieces into the desired shape. Attach & Build works great on EVA foam, L200 foam, XPS foam, thermoplastics, Worbla, Sintra, cloth, wood, metals, and much more.

INSTRUCTIONS FOR USE: 1) Make sure surfaces to be adhered are smooth and clean, 2) Cut Attach & Build to the desired size and shape, 3) Peel off one side of the release paper and press exposed adhesive to 1st surface (rub firmly to ensure the entire surface is adhered), 4) Peel off the release paper and press exposed adhesive to 2nd surface (rub firmly to ensure entire surface is adhered)
